Has successfully completed the **Gen AI Study Jams 2024**, organized by **Google Developers Groups On Campus AITR, Indore**. Held from **11th October 2024** to **14th November 2024**, this comprehensive program provided participants with engaging sessions and practical labs to explore and deepen their understanding of Google's Generative AI technologies. Participants gained hands-on experience with advanced tools and frameworks, and the application of generative AI to solve real-world challenges. The event served as a platform for fostering innovation and advancing proficiency in cutting-edge AI technologies.
